

Wyssen 2K® Charge

Blasting without explosives: Blasting without explosives: Unlike traditional explosive charges the Wyssen 2K® becomes explosive material only moments before use. This creates an incredibly safe and easy to handle charge. Furthermore 2K® has many advantages during transport and storage.

Features

- ✓ Suitable for all Wyssen Avalanche Towers LS6-5, LS12-5 and LS24-5
- ✓ Total explosive substance: 4.2 kg (9.3 lbs)
- ✓ Detonation velocity approx. 4,200 m/s
- ✓ Ignition once mixed:
Detonator Nr. 8, 2 per charge
- ✓ Increased safety due to contained safety fuse in the charge container
- ✓ Detonators face each other in order to mutually detonate themselves
- ✓ The charge becomes inert if there is no detonation
- ✓ Easy and safe transport
- ✓ Easy to mount and to handle

Safety through **innovation**
